

Integrated Waste Management Event Guidelines

The City of Glendale Integrated Waste Management Division can assist your event with the following:

- Large containers for recycling and garbage (bins and/or carts)
- Smaller containers such as Clear Stream or carts to place throughout the event for attendees to put garbage and/or recycling
 - The items collected in the smaller containers will need to be emptied into the larger containers to be serviced by our trucks
 - ClearStream Containers can only be lent to event organizers

ClearStream Containers

The Integrated Waste Management Division can recycle the following items:

- **ALUMINUM, TIN, METAL, & BI-METAL CANS:** Juice, pet food, soda, soup & vegetable cans
- **BEVERAGE CARTONS:** Juice, milk & soup boxes
- **CARDBOARD (flattened)**
- **GLASS BOTTLES & JARS:** Beer bottles, food jars, soda bottles & wine bottles
- **PAPER:** Envelopes, junk mail, magazines, newspaper and inserts
- **PLASTIC BOTTLES & CONTAINERS (NUMBERED 1-7):** Bleach, detergent, juice, lotion, margarine containers, milk jugs, mouthwash, plastic planters, shampoo, soda & yogurt containers
- **SCRAP METAL**

Tips for Reducing Waste at Events

Reduce

- Serve food on napkins (whenever possible) instead of plates.
- Avoid plastic utensils, cups and plates.
- Reduce unnecessary packaging by purchasing items in bulk.
- Use washable rags for cleaning instead of disposable napkins and towels.
- Use washable table cloths, rather than disposable paper ones.

Reuse

- Donate leftover items such as food and floral arrangements to other organizations (Visit earth911.org or look for phone apps with information on where to donate)

Recycle

- **Use recyclable cups and plates. Please NO Styrofoam.**
- Please **train all of your workers** to use the recycling containers properly. Recycling containers should be located directly next to garbage containers.
- All cardboard and paper should be recycled. **Please flatten boxes so that more recyclables can fit into containers.**
- "Close the recycling loop" by buying products made of recycled materials!
